THE Government has made provision for the payment of the interest due on the five twenties on the 1st proximo, in coin.

THE FENIANS appear to be in earnest in their threatened uprising in Ireland, but the English Government is on the alert for any movement they may make.

NEGRO suffrage was pressed prematurely on the Ohio people. Thirty-eight counties that gave Hayes a majority of 6,394, gave at the same time a majority of 16,744 against the Amendment, so that in those counties the Amendment ran 23,139 votes behind Hayes.

THE importance of one vote was shown in Jackson county, Ohio, at the recent election. The Democratic and Republican candidates for treasurer each received 1,840 votes. To decide the question lots were drawn, and as luck all round appeared to have been in favor of the opposition, the Republican lost.

THE good people of London are agitated by a rumor that the Fenians have designs on the Queen and contemplate seizing her at Balmoral, in order that they may force a cup of cold poison down her royal throat. Who else but a Fenian would think of thus getting rid of Her Majesty. Catch the Queen and then *poison* her. The idea is brilliant and the method of assassination as exquisite as a French suicide.

THE advices from Paris by cable announce the defeat of the Garabaldians by the Papal troops on Sunday last in an engagement near Monte Liberate. The Papal troops were falling back towards Rome, where it is probable they will make a stand and have a decisive battle.

The entire press of Italy is in favor of the seizure of Rome by the Government, and the Garibaldians hourly find fresh strength from the people. The Pope is evidently contemplating flight from the city, and has called an immediate meeting of the Cardinals to consider the situation of affairs. In several points in Viterbo, engagements resulting in the success of the Insurgents have taken place.

THE decision of Chief Justice Chase, delivered in Baltimore yesterday, on the petition of a colored female apprentice to be discharged from restraint, is very important, and will affect many similar cases in Maryland. The apprenticing of young colored folks, after emancipation, to their former masters, was quite a common occurrence in all the Southern States, and the system remained as a mild form of slavery, more especially since no benefits were guaranteed the apprentices. In this particular case, which is elsewhere published in full, the girl was restrained of her liberty just as much as she had been previous to gaining deliverance from slavery. The Chief Justice decides that, under the Civil Rights bill, colored persons are citizens of the United States equally with whites, and no citizen can be held in involuntary servitude, except in punishment for crime.

WE REJOICE MUCHLY. The cable has held back on race horse intelligence and furnishes the readers of America with the important sporting announcement, all the way from London, that "Jem Mace has been arrested," but consolingly remarks "his fight with the Irish Giant O'Baldwin will be fought out in Ireland or France." Moreover, "there is an opinion that Mace sold out the fight and meant to be arrested." Perfidious Mace! Unfortunate Irish Giant! But then, "wherefore are these things thusly"? Do American newspapers pay exorbitant tolls to the Associated Press for such intelligence? It may be interesting to a few sports to know the movements of the tricky Jem Mace and the muscular Hibernian giant O'Baldwin, but we object to having such items flashed over the ocean to the exclusion of other important news, especially since we pay our money and are entitled to our choice.

EDITORIAL GLEANINGS.

AT PFEDDERSHEIM, in Germany, a lad, nine years old, who had been taken to see a man hung, was thus influenced to try experiments at hanging himself, in which he was too successful. Children with unformed minds should not be allowed to witness such horrible sights, nor should grown people witness them unless it is necessary for them to do so. The impression left on the mind by such tragedies is lasting and by no means agreeable.

THAT heroic woman, the Princess Salm Salm, the heroine of the latter part of the Mexican war, who perilled life and liberty in her efforts to liberate the Emperor, has taken up her residence in Queretaro, where her husband is undergoing his sentence of seven years imprisonment. The Princess prefers staying near her husband to all the honors which so assuredly await her at Vienna.

A PRIVATE letter from Europe asserts that Herr Bogumil Dawison, the eminent tragedian, who lately travelled through this country professionally, and who intended to return in 1868, has become insane, and is at present confined in a mad house. Mr. Dawison has for several years been the sun of the German stage, a position which he achieved at a bound, and has held in spite of much bitter rivalry.

BISHOP WHITEHOUSE, of Illinois, preached the opening sermon at the Synod at Lambreth Palace, and Bishop Hopkins, of Vermont, was the only United States Prelate assigned a place within the altar rails, with the English and Irish Archbishops. This precedence was accorded because Bishop Hopkins is the Senior Bishop of this country, and not as an exchange remarks, "because he is half a Romanist."

MANY of the Southern cities have suffered as much, or more, since the war, as during it. Of Galveston especially may this be said. She has been visited by an almost devastating pestilence. Out of an estimated population of twenty-five thousand souls over one thousand have been translated. One out of every twenty-five, and from all classes of society, for Yellow Jack is no respecter of persons. And to this grievous affliction has been added a flood second only in destructiveness to the original deluge, and following so close on the horrors of the war that Galveston must be indeed a scene of desolation and woe.

THE number of students at the Columbia College School of Mines exceeds one hundred. While almost as many Americans are studying at the mining university at Fribery in Saxony. The advantages in Saxony are great, but those of Pennsylvania are greater, and the mining interests are so large that a mining school, and a good one, should be one of the institutions of the State. That of Columbia College is good, but New York is not the place for a high school of this kind. Pennsylvania, California and Missouri should each have a school of the character capable of attracting, by its merits, students from all parts of the world.

THE Corn Exchange, of Philadelphia, having changed its name to Chamber of Commerce, is about to erect a new building for its accommodation on the site of the old Penn mansion. Senator Cattell, of N. J., presided at the laying of the corner stone on Monday last.

MR. GREELEY'S first work in a printing office in New York was the setting up of a New Testament. He has never rested in the labor, ever and at all times setting up that book above all things else.

THE Christian Convention which assembles here next week promises to be one of the most important assemblages of the character ever held in Pennsylvania.

SALE OF THE MISSOURI PACIFIC RAILWAY.—A St. Louis dispatch to the Chicago *Journal* states that Governor Fletcher, of Missouri, will probably call an extra session of the Legislature, to meet early in December, to pass upon the various railroad interests of the State, prominent among which will be an attempt to sell the Missouri Pacific Railroad. It it said that three parties—the Pennsylvania Central and New York Central Railroads, and a combination of St. Louisians—are ready to bid for the road, the lowest figure spoken of being four millions. This road runs from St. Louis to Kansas City, 283 miles; and, when the guage shall be changed from 5 feet 6 inches to 4 feet 8½ inches, as it will be in any event, will be a virtual extension of the Union Pacific Railway of Kansas eastward to St. Louis.

TAKE YOUR CHOICE.—"Occasional" says of the States which have gone Democratic:

"We should undertake to bring them back to duty, with California to boot, *simply by honestly defending and bravely sticking to our principles.*

We will take the colored man by the hand and ask our countrymen to decide between him and the white traitor.

The Black Patriot or the White Traitor—which do you choose?"

GENERAL NEWS.

—A marvelous collection of *objets d'art* and gems is now on exhibition in Paris. Connoisseurs opine that so large a number of unique and magnificent valuables have never been gathered together in any country, and a prince, whose taste is as proverbial as his wealth, recently declared that he never even suspected the existence of such marvels. It would be impossible to enumerate the elements of one-fourth of the collection; but we can mention a few of the wonders without attempting to give a satisfactory description of any. First comes a little basket carved out of a single emerald, which is as large as a good sized apricot. There are portions of the apricot which have been cut through, and other parts have been sculptured *en relief*. It is said that the work on this little basket required an outlay of time in duration equal to the lives of several men. Then the connoisseurs are shown a vase made of a singular turquoise in the form of a goblet, about thirty centimetres in height, and surrounded by a garland of gems. Experienced appraisers who were called upon to estimate the value of this wondrous vase failed to agree as to the figure, but all admitted it exceeded 14,000,000 francs. A small boat carved out of jade, and tenanted by two tiny figures—a man and a monkey made of gems; a cage made of gold and gems, containing birds, and a clock of like materials, a drinking cup, from a single opal, are next in the order of exhibition. We can only make a general mention of caskets filled with unset precious stones, worth from 500,000 to 1,000,000 francs, of forty snuff boxes of the most magnificent description, and of qualities of bracelets, rings and earrings, set with rubies, turquoises, emeralds, sapphires and diamonds of every color, for an enumeration of all these curiosities would require more space than could be given it. The singular feature of the exhibition, however, is the simplicity which characterizes the action of the exhibition. The gentleman who does the honor of the place allows the visitors to admire, touch and *vitiare* all the valuables displayed, and then throws the entire collection into a broken chest and a wretched bureau drawer, turns the key in a rusted lock, and sallies forth to the restaurant, pending the hour fixed upon by some sovereigns who have promised to view the collection. Thus far, no bargain of any magnitude has been made on account of the immense prices that are asked.

—Senator Fiarelli's workmen are constantly unearthing new treasures at Pompeii. One of the most recent is a strong box. It was evidently covered with thin plates of iron. The front is ornamented with bronze *bas-reliefs*, which are almost uninjured. There was a man's head, from its grotesqueness supposed to be a masque, two busts of women, two genii, and the head of a dog. Around these is a circle of ivy leaves.

All are finely and carefully engraved. The genii are thought by some who have seen them to equal Tiberti's heads of angels, on the famous bronze doors of the Baptistry of Florence. The dog and the ivy of course symbolize vigilance and fidelity. The busts are thought to be family portraits. The house in which the box was found is south of the city, on the Castillamare side.

In the same quarter, a decayed wooden box yielded a specimen of the gold *bullas* worn by the children of rich families. It opens, and has a little hollow place in the centre. On it is a buckle in filagree work; through this passed the ribbon by which it hung from the child's neck. Five gold rings were found, a very modern looking breast-pin, a broken bracelet, ear-rings of an entirely new pattern, emeralds, stones, engraved but not mounted, silver spoons of different sizes, and a large amethyst of great value, on which are two figures, which are believed to be Appollo and Cupid.

It is supposed that this house, so prolific of jewels, was the shop of a lapidary.

—James Guthrie, when Secretary of the Treasury, one day sent a letter to a friend in Baltimore. The next morning its recipient appeared in the department and handed back the missive. "Mr. Guthrie," said he, "I can't make out one word of your letter but the signature, so I have brought it for you to translate." The Secretary knitted his brows, and puzzled over it for some minutes. At last he gave it up. "Hang me if I can read it either! I have forgotten its exact contents, but I know what I wanted to see you about. Sit down and I will tell you."

—Boston must look out for its laurels, which Paris is daring enough to seize. The Paris *Guide* calls the gay French capital the "pivotal" city on which the world turns. What is this but a bold usurpation of the honor of being "the hub of the universe"—a position hitherto held by Boston, as everybody knows? Presumptuous Paris ought to be taught that she is located on one of the spokes of the world, not in the centre of the axle. Let the autocrat of the "Breakfast Table" come to the rescue in behalf of outraged Boston, round which the world revolves.

—An interesting collection of fossils is now on exhibition in Charleston, South Carolina. Among them are bones of the extinct mastodon, megatherium-mylodon and Tapir; also of the native American deer, raccoon, opossum, beaver and elk, beside those of the horse, cow, sheep, dog and hog, and, most marvelous to relate, stone hatchets, arrow and spear heads, and fragments of pottery, all evidently the workmanship of man.

—The York *Democrat* has the following: William H. Gerbrick, late a soldier in the 16th Iowa, desires information of his father and mother, Jacob and Mary Garbrick, formerly of Somerset and York counties, Pa. When last heard from, in 1847, they were in Pittsburgh, Pa. Any information will be gladly received by their son, William H. Gerbrick, Chicago, Ill. All papers in the United States are respectfully requested to copy.

—In Memphis, last week, there were ninety-four deaths from yellow fever. There was a slight frost on Saturday night.

—The Reno, Oil Creek and Pithole Railroad, in Venango county, has been sold at auction for the sum of one hundred and twenty-one thousand dollars, cash.

—Jeremiah Smith has been appointed by the Governor of New Hampshire to the vacancy on the bench of the Supreme Court of that State.

MARYLAND NEGRO APPRENTICE LAW.

Important Case Before Chief Justice Chase.

THE CIVIL RIGHTS BILL DECIDED CONSTITUTIONAL.

Colored Persons, Equally with White, Citizens of the United States.

[By Telegraph to the Pittsburgh Gazette.]

BALTIMORE, Oct. 16.—In the United States Circuit Court yesterday a hearing was had before Chief Justice Chase upon the petition of Elizabeth Turner, colored, by her next friend, Charles Henry Minsky, addressed to the Hon. Salmon P. Chase, Chief Judge of the Circuit Court of the United States, and for the Maryland District. The petitioner alleges that she is child of Elizabeth Minsky, formerly Elizabeth Turner; that she is restrained of her liberty and held in custody by Philemon T. Hambleton, of Talbot county, Maryland, in violation of the Constitution and laws of the United States; also, that the petitioner is restrained of her liberty by virtue of certain alleged indentures of apprenticeship, made not in accordance with the laws of the State of Maryland, as applicable to the binding of white children. The petitioner prays this Court for a writ of *habeas corpus*, addressed to said Hambleton, requiring him to produce in Court the person of the petitioner and certify the true cause of her detention, and to show cause, if any he has, why the petitioner should not be discharged.

[Signed] —H. STOCKBRIDGE
and NATHAN M. PUSEY,
Attornies for Petitioner.

The petition was filed Sept. 20th, and endorsed: Writ granted as prayed, returnable Oct. 15th, 1867.

[Signed.] S. P. CHASE,
Chief Justice of United States.

The Master, P. T. Hambleton, made the following return to the writ: "In obedience to the command of the within writ, I herewith produce the body of Elizabeth Turner, together with a copy of the indenture of apprenticeship, showing the cause of her caption and detention, and respectfully await the action of your Honor."

The petitioner appeared by counsel.

The Chief Justice inquired of the respondent if he had counsel in Court.

He replied in the negative, and said he would let the matter be settled by the Court.

The Chief Justice stated he would prefer that the case should be fully argued.

Respondent stated that the child and its mother were formerly his slaves, and were set free by the Constitution, which went into operation Novemeer 1st, 1864. The child was apprenticed Novdmber 3d, 1864, two days after she was emancipated. The law of Congress, called the Civil Rights Bill, was passed since the child was indentured, (April 9th, 1866,) and everybody told him that the law did not interfere with this case.

The Chief Justice said the question in the case was so grave and important that he wished to be advised by argument of counsel on part of the claimant, and would adjourn the Court until to-day at nine o'clock, in order to give the claimant, or any person interested in the decision, an opportunity to appear. If no person appeared, he would dispose of the case.

The Court convened at nine o'clock this morning, when the Chief Justice delivered the following decision:

The petitioner in this case seeks relief from restraint and detention by Philemon T. Hambleton, of Talbot county, in Maryland, in alleged contravention of the Constitution and laws of the United States. The facts, as they appear from the return made by Mr. Hambleton to the writ, and by his verbal statement, made in court and admitted as part of the return, are substantially as follows: The petitioner, Elizabeth Turner, a young person of color, and her mother, were, prior to the adoption of the Maryland Constitution of 1864, slaves of the respondent. That Constitution went into operation November 1st, 1864, and prohibited slavery. Almost immediately thereafter many of the freed people of Talbot county were collected together under some local authority, the nature of which does not clearly appear. The younger persons were bound as apprentices, usually, if not always, to their last masters. Among others Elizabeth, the petitioner, was apprenticed to Hambleton, by an indenture, dated on the 3d of November, two days after the new Constitution went into operation. Upon comparing the terms of this indenture, which is claimed to have been executed under the law of Maryland, relating to negro apprentices, with those required by the law of Maryland in indentures for the apprenticeship of white persons, the variance is manifest. The petitioner, under this indenture, is not entitled to any education. A white apprentice must be taught reading, writing and arithmetic. The petitioner is liable to be assigned and transferred at the will of the master to any person in the same county. The white apprentice is not thus liable to the authority of the master. The petitioner is described in the law as a property and interest. No such description is applied to the authority over a white apprentice. It is unnecessary to mention other particulars. Such is the case, I regret, I have been obliged to consider, without the benefit of any argument in support of the claim of respondent to the writ; but I have considered it with care and an earnest desire to reach the right conclusions. For the present I shall restrict myself to a brief statement of these conclusions, without going into the grounds of them. The time does not allow more. The following propositions seem to me to be sound, and they decide the case.

First—The 1st clause of the 13th amendment of the Constitution of the United States interdicts slavery or involuntary servitude, except as a punishment for crime, and establishes freedom as the constitutional right of all persons in the United States.

Second—The alleged apprenticeship in the present case is involuntary servitude, within the meaning of these words in the amendment.

Third—If this were otherwise, the indenture set forth in the return does not contain the important provisions for the security and benefit of the apprentice, which are required by the laws of Maryland in the indenture of white apprentices, and therefore is in contravention of that clause of the 1st section of the Civil Rights law, enacted by Congress April 9th, 1866.

Fourth—The law having been enacted under the second clause of the 13th amendment, enforcement of the 1st clause of the same is constitutional, and applies to all conditions prohibited by it, whether originating in transactions before or since the amendment.

Fifth—Colored persons, equally with white persons, are citizens of the United States.

The petitioner therefore must be discharged from restraint by the respondent.

Recent Collision on the Hudson—Verdict of the Coroner's Jury.

[By Telegraph to the Pittsburgh Gazette.]

POUGHKEEPSIE, N. Y., October 16.—The Coroner's jury in the case of Mr. Ryan, fireman on board the Dean Richmond, drowned at the recent collision with the Vanderbilt, in their verdict say the collision was caused by culpable carelessness, mismanagement and criminal intent of the persons navigating the Vanderbilt. Some of the jurors wished the verdict changed, making it less pointed as regards blame on the Vanderbilt, but all finally signed it.

SICKLES' COURT OF INQUIRY.

The New York *Times'* special says: The President has returned Gen. Sickles' application for a Court of Inquiry to the War Department, with his disapproval and his reasons therefor. The principal one is, that General Sickles has already appealed for redress at the bar of public opinion, and if he would order a Court of Inquiry it would simply be giving him another hearing. If not satisfied with the verdict of the public, the President intimates that he may demand a Court Martial. As the public have pretty generally sustained General Sickles, it is not likely that he will ask any further vindication at the hands of the President.

COMMITTEE ON SOUTHERN RAILROADS.

The Sub-Committee of the House of of Representatives to inquire into the past and present relations of Southern Railroads with the Government, and what would be fair and equitable in the adjustment of their indebtedness, will leave Washington for Richmond to-morrow morning, where they will remain for several days. Thence they will proceed by way of Lynchburg and Knoxville, to Atlanta, Chattanooga and Nashville, or they may go from Richmond to Charleston, and thence by Macon to Atlanta, the route not being positively determined. The Sub-Committee consists of Representatives M'Clurg, (Chairman,) Mercer, Sawyer and Washburne, (Indiana,) accompanied by N. L. Ordway, Sergeant-at-Arms, and Capt. Meigs, Clerk.

INTEREST ON 5-20'S—NINETY MILLIONS IN COIN REQUIRED.

The interest on 5-20 bonds, payable annually, falls due on the first of November, and $90,000,000 in coin will be required to pay the same, as follows: At New York, $17,429,000; Boston, about $300,000; Philadelphia, $2,359,000; Baltimore, $652,000; Washington, D. C., $258,000; Cincinnati, $194,752; St. Louis, 94,772; Chicago, $128,709; Pittsburgh, $10,422.

A PORTRAIT CLAIMED.

A portrait of two children feeding a horse, forwarded to the Dead Letter Office from our army in the South, has been claimed by a family residing at Columbia, South Carolina. The children are now deceased, and the portrait is highly valued by the parents. It will be at once restored.

THE IMPEACHMENT QUESTION.

The members of the Judiciary Committee, now here, declare to-day that the majority of the Committee is in favor of impeachment, and are confident the project will receive the approbation of the majority of the members of the House. There is no doubt the Committee will press the subject at an early day in the session upon the attention of Congress.

RAILROAD ACCIDENT.

A serious accident occurred on the London and Hamshire Railroad yesterday, near Leesburg. The engine and baggage cars were thrown down an embankment twenty one feet, and completely destroyed. The passenger cars remained on the track. Mr. Peacock was seriously injured; Conductor Carlin slightly, and also the engineer, Mr. Carter, who made a narrow escape by leaping from the baggage car.

GEN. KILPATRICK RESIGNS.

COURT MARTIAL SENTENCE.

Major Pierce, the officer who recently destroyed a printing office in Camden, Arkansas, for some offensive article published by the editor, has been sentenced by Court Martial to forfeit his pay for one year, to be degraded in rank to a captaincy, and to be reprimanded in general orders.

CANBY'S JURY ORDER.

Governor Orr, in his letter to the President, asking him to revoke Gen. Canby's recent jury order, complains that the order, which constitutes as competent jurors all persons who have not been adjudged to have been disfranchised under the military reconstruction acts, is cruel and unjust, and should be immediately set aside. No action has been taken as yet.

GEN. BEAUREGARD.

It is understood that the purpose of the visit of General Beauregard to the President and General Grant was to have restored to him certain lands which he owns near Memphis, and which are now occupied by Freedmen's Bureau officers.

STEAMBOAT INVESTIGATION.

The Government Steamboat Commissioners are in session here and will investigate the Vanderbilt and Dean Richmond collision.

WHOLESALE FINING.

NEW YORK.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 16, 1867.

AID FOR MRS. LINCOLN.

The proposition to raise a subscription for Mrs. Lincoln's benefit, has received her sanction. About five hundred letters have been addressed to prominent politicians and colored clergymen, calling upon them for donations. A book has been opened in Mr. Brady's rooms in Broadway, where her wardrobe is on exhibition for the same purpose. The sum of one hundred and fifty-five dollars and fifty-five cents was subscribed yesterday by thirteen individuals, in amounts varying from twenty-five cents to fifty dollars.

POLITICAL ROW.

A row occurred recently at a Radical Nominating Convention in Williamsburg, Va., between D. B. White, a Radical stumper, an ex-Colonel of negro troops, and a candidate for the Convention, and a negro named Dr. Norton, another candidate. Norton's friends rushed on White, and he was compelled to escape through a window. He was followed by a crowd of negroes, who cried "kill him." He got away, and obtained a warrant for the ringleaders, and had them bound over to keep the peace.

THE RAILROAD CONFERENCE.

The *Post* says the Railway Conference yesterday was quite harmonious and the accord complete between the Great Trunk lines as to rates of business. The project of consolidation of earnings was partially discussed, but no result arrived at. The new administration of the Erie promptly agreed to raise their passenger fares to the scale of other trunk lines, and a revision of fares with the Western roads is expected to give the Central and Erie $1,81 additional to the present rates on through business to and from Chicago.

MISSOURI BONDS.

The *Express* says the Bank of Commerce is not yet ready to pay any of the past due coupons of Missouri bonds, from the fact that the instructions received are not regarded as explicit enough. There is no doubt that four or five of the coupons will shortly be paid, only the holders will have to submit to a few days' delay.

CONVERSION OF 7-30'S.

The Assistant Treasurer to-day converted $1,250,000 of June and July 7-30 notes into 5-20 bonds and paid off $139,000 of August notes. The amount of compound notes exchanged for three per cent. certificates is $565,000, and $162,000 was redeemed in currency.

Republican Mass Meeting in New York City—Syracuse Nominations Ratified.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 16.—The Republicans of this city held a mass meeting this evening at the Cooper Institute, to ratify the nominations of the Syracuse Convention. The attendance was large and great enthusiasm was manifested. Senator Morgan occupied the chair. John Cochrane and others.

Richmond (Va) Nominations for the Convention—Variety of Tickets.

RICHMOND, October 16.—The nominations of Marmaduke Johnson, N. A. Sturdivant, Wm. Tyler, Thos. J. Evans and A. N. Sands give general satisfaction to the Conservatives, and the ticket will be well supported. A ticket of moderate Republicans, with Dr. Sharp, brother-in-law of General Grant, at the head, and ending with Fields Coat, a mulatto, also meets with favor; but the Conservative ticket spoils its effect. It is thought the best men from both may be taken to make a compromise.

General Wise, in a speech at the Horticultural and Pomological exhibition, to-night, advised the people to devote themselves to agriculture, manufactures, and labor, to develope the resources of the State and recover their material prosperity.

Dr. Alexander Sharp, brother-in-law to Gen. Grant, and Postmaster of this city, will publish a card in to-morrow's *Dispatch*, positively declining the nomination for the Convention tendered him by moderate Republicans.

The State Election—Alleged Fraudulent Voting.

A dispatch from Harrisburg says the central organ of the Republican party published here, in a long editorial, warmly urges that the election of Judge Sharswood be contested immediately on the assembling of the Legislature, on the ground of fraud. It says that in Harrisburg alone forty illegal votes were polled for him, and that not less than three thousand deserters votes were polled in York, Cumberland, Adams, Franklin and Bedford, and that gross frauds were committed in Clearfield, Juniata, Centre, Berks, Northampton and Luzerne. It calls upon the Chairman of the Republican State Committee to bestir himself in procuring the evidence before the meeting of the Legislature.

General Morgan, in command at Fort Delaware, says he believes the soldiers vote at that place was illegal, but it was taken by an officer commissioned by Governor Geary. Judge Thompson has refused to enjoin the return judges from counting this vote, because the judges were not aware of any fraud, and only did their duty as judges in the case.

Marrying a Deceased Wife's Sister.

At the late meeting of the Old School Presbytery of Cincinnati, at Glendale, the following overture was presented:

If a Presbyterian minister should be asked to solemnize a marriage, where the bride is the sister of the bridegroom's deceased wife, ought he to solemnize such a marriage?

To this the Presbytery adopted this answer:

That the marriage of a man with his deceased wife's sister is clearly condemned by our Standards and our General Assembly, yet that this teaching of our book is not so connected with the system of doctrine contained in the confession as to forbid a diversity of views concerning it on the part of those who sincerely receive and adopt the confession. Still, while this teaching of the confession remains, a minister ought to so respect it as to refuse to solemnize the sort of marriage specified, whatever may be his private views concerning its lawfulness.

Attempted Suicide.

A very determined attempt was made yesterday afternoon, by a man calling himself Don Dunavan, to "shuffle off this mortal coil," the circumstances of which, so far as we were able to ascertain them from him, are as follows: It appears that "Don" was formerly employed on a steamboat plying between this port and Cincinnati, on which, sometime last spring, a robbery was committed, and so carefully was it done that all attempts to discover the perpetrator have been unsuccessful. Yesterday morning Don met an old companion, who was employed on the boat with him at the time the robbery was committed, and while in conversation together the friend called him a thief, and said he had stolen the money on the steamboat. This was more than he could stand. He said that rather than have such a stain upon his character he would put an end to his existence. He went to the Priest gave him all his money and his watch, then repaired to the Monongahela river at a point near the upper bridge, where a number of barges and flat boats are lying, upon which he went, and after taking off his hat, coat, and boots jumped into the water. This was all he could tell of the story, as he remembered nothing that occurred afterwards; but the remainder was obtained from two boys who rescued him from "a watery grave." They were crossing the river in a skiff near the gas works, which are several hundred yards below where he jumped in the river, and discovering the body, one of them caught hold of it, while the other rowed the skiff, and in this manner they towed it to shore. Dr. A. Arthurs was summoned, and when he arrived the man was apparently dead, but after several minute's work he was resuscitated, and then conveyed to a tavern in Pipetown, where he made the above statement. He is in a fair way to recover.

Mail Agent Killed.

Mr. William Perkins, mail agent on the Pittsburgh, Fort Wayne and Chicago Railway, between Pittsburgh and Crestline, was accidentally killed in the vicinity of Lakeville, Ohio, on Tuesday. He had obtained leave of absence from his duties, and went with some friends on a hunting excursion to the place stated. While engaged in loading his gun one of the dogs belonging to the party was playing about his feet, and by some means caused the discharge of the gun, the contents, shot, taking effect in Mr. P's head, shattering it very much and killing him almost instantly. His body was brought to the city on Tuesday night, and conveyed to the residence of his family in Chartiers township, this county. Mr. P. was a well-known citizen, highly esteemed, and about twelve years since served a term as one of the Board of County Commissioners. His age was fifty years, and he leaves several married sons and daughters to mourn his death.

Beware of Counterfeits.

An experienced expert in counterfeit detecting, connected with one of our leading banks, assures us that at no time since the introduction of national currency and legal tenders have there been more counterfeits in circulation. We have heard of numerous losses sustained by business men through lack of knowledge to decide on the character of notes presented. We were yesterday shown a three-legged microscope which is a powerful auxiliary in the detection of counterfeits. It is very powerful and shows the faults of a counterfeit with certainty. In view of the number afloat every banker, treasurer, cashier and merchant should have one of them within his reach. Messrs. Dunseath & Haslett, the opticians and jewelers, No. 56 Fifth street, have them for sale, and as the price is very little they should be generally in use.

The Mansion House.

This well regulated and comfortable hotel, No. 344 Liberty street, has passed into the hands of Messrs. Wagner & Ziessler, who are determined that it shall rank as high as any similar establishment in the city. The house has recently been thoroughly refitted, and is clean, new and neat in every department. It contains over one hundred large, comfortable and well ventilated rooms, and is furnished throughout in the best style. Situated within two minutes' walk of the Union depot, travelers will find it very convenient, and will receive all the accommodations which can possibly be rendered by attentive hosts and clever and obliging clerks and employees. Connected with the house is a splendid hall for concerts. Boarding, with or without rooms, for families or single persons, can be obtained by the day, week or month, at most reasonable terms. The house is in every respect worthy of patronage.

Brought from Washington.—"Snibbs" Arnold, now under arrest on a charge of murdering David Sproull, and Thomas Whittaker, arrested on a charge of robbing Miss Nancy Sproull, were brought over from the Washington county jail on Tuesday night, and placed in the city lock-up, from whence they were removed yesterday morning to the county jail. The removal to the jail of this county was considered imperative, as the Washington county jail is not in condition to receive them. Having waived a hearing, they are finally committed for trial.

Accident.—Two men were engaged yesterday, on Wood street, near First, in laying gas pipe, and while in the trench in which the pipe was to be placed, the sides caved in upon them, seriously injuring one, while the other received some slight injuries. They were soon extricated from the uncomfortable situation by their fellow workmen and removed to their boarding house, where a physician attended them.

Immense Sales.—H. B. Smithson, of the firm of Smithson, Palmer & Co., well known auctioneers, sold yesterday, the residence of Marshall Swartzwelder, Esq., at Hazelwood Station, on the Connellsville Railroad, for the sum of $23,350. H. W. Oliver, Esq., was the purchaser. This sale makes the enormous amount of $215,950 worth of real estate, sold by Smithson, Palmer & Co., for the present week.

Monthlies for November.—Pittock, opposite the Postoffice, (always up to time,) has received Mdme. Demorest's Mirror of Fashion, and Frank Leslie's Magazine, containing good reading matter and fine steel engravings of the very latest fashions. Our lady readers should call and get them, as they will be of great service in making up their fall suits. Pittock's, O. P. P. O., is the place.

To Capitalists.—By reference to our new advertisements, in to-day's paper, you will see a rare chance to purchase a twenty thousand dollar mortgage on property worth one hundred thousand dollars and still increasing. The party holding the above mortgage having immediate use for the money, a rare chance will be given.

Present for Canton Firemen.—Messrs. C. H. Cutler, G. L. Braun, G. L. Bonnaffon, C. Cary and W. C. Stratton left yesterday for Canton, Ohio, their special mission being to present to the Washington Hose Company of that city a set of silver plated axes, manufactured for the purpose in this city.

Committed.—Cal. Black, the abandoned woman charged with outrageously beating Belle Kelly, another frail one, has been committed to the county jail by Mayor Morrison for a further hearing. The injured woman is yet in a critical state, and her recovery regarded as very doubtful.

Personal.—General T. J. Rodman, of the Ordnance Corps, is in the city, the guest of J. H. McClelland, Esq., Postmaster. The General is here for the purpose of superintending the manufacture of steel shot at Park & Co.'s works, for his fifteen and twenty inch guns.

Jail Escape.—Three prisoners—Francis Hidinger, Henry Burke and G. W. Hopwood—escaped from the Franklin jail, Venango county, on Monday, and are still at large. A reward is offered for their apprehension.

Unclaimed Freight at Auction.—At warehouse of White Bros. & Co., No. 6 Seventh street, on Saturday, November 16th, at 10 A. M. See advertisement of Smithson, Palmer & Co., Auctioneers, 55 and 57 Fifth street.

Dan Rice will visit this city about the 29th inst., with his great show, and will remain four days. His exhibition will be on the Red Lion Lot.

The City Republican Executive Committee will meet to-day at the office of Maj. A. M. Brown.

The Sewer on Fifth street has been completed as far as Smithfield.

SURETY OF THE PEACE.

James Monahan made information before Alderman Taylor, yesterday, against Lawrence Purcell, for surety of the peace, alleging that Purcell threatened to blow his brains out. A warrant was issued for the offender.

FALSE PRETENSE.

James Kerr yesterday made information before Alderman McMasters, against Mrs. Andrew Benhart, charging her with obtaining goods under false pretense. Kerr keeps a store at Ireland Station, on the Allegheny Valley Railroad, and he alleges that the defendant obtained goods of him to the amount of $61 71, representing that she had money in the Merchants Bank of Pittsburgh, which he has since ascertained to be false. A warrant was issued for the accused.

ASSAULT AND BATTERY.

Charles Ehronkrook, of East Liberty, yesterday made information before Alderman M'Masters, against John Richards, charging him with assault and battery. He alleges that the defendant in company with his father and J. Myers, constable of Collins township, came to his house for the purpose of making a levy on his goods, that they broke in his doors with a hatchet, and when he remonstrated with them one of them held him while another beat him over the head with a poker. He also made information against Millar Richards, the father, and against Myers, for felonious assault and battery. Warrants were issued for the parties.

Sarah Ann McKenzie appeared before Alderman McMasters yesterday, and made information against Mary White, charging her with assault and battery. The prosecutor is a colored woman, keeps a house at 33 Duncan street, and the defendant boarded with her. She alleges that they had a quarrel, which resulted in a fight. Mary became savage and vented her spleen, not only on the prosecutor alone, but broke up her crockery and queensware. The prosecutor also made an information against her charging her with malicious mischief.

Williams R. Morgan made an information before Alderman Thomas, yesterday, against Thomas James for surety of the peace. The prosecutor alleges that the defendant used abusive and threatening language towards him, by calling him a black sheep, and threatening to do him harm. A hearing was had, and the defendant gave bail for his appearance at Court. The parties reside in McClure township.

Real Estate vs. Greenbacks.

There has never been a period in the history of Pittsburgh and its surroundings when so much *Real Estate* changed hands as during the past six months. Prices have been steadily advancing for several years, and during the past few months we have particularly noticed that our shrewdest business men, and the wealthiest and ablest financiers, have been investing largely, and if "men are to be judged by their actions," it thereby shows more confidence in real estate than in national currency or government securities, because it will pay them double the per centage at present prices; and the universal opinion of experienced real estate men is that in the next year to come much higher prices will be demanded and obtained than ever before. Another reason why real estate will advance in price is, that our citizens are becoming tired of smoke and coal dust and impure air, and are manifesting a disposition to get to the country. As an evidence of this disposition we need only refer to the auction sale of lots in *Hoboken*, on Saturday last. Lots were bid off with great rapidity at good prices; in fact, we are informed the sale was a great success—beyond expectation.

Those of our friends who want homes, or desire to purchase real estate, should see to it at once, and lose no time in making a choice, for the "signs of the times" unmistakably indicate an advance in all real estate property.

In this connection we may be permitted to add that the well known and enterprising real estate firm of Sill & Shutterly, Lawrenceville, informs us that another sale of lots in that beautiful town of Hoboken will take place on Monday afternoon, Oct. 21st, at 2 o'clock, when there will also be an opportunity afforded those who desire purchasing one, two, three, or five acre lots. Notice of free trains will be given in Friday morning's papers.

This firm also have for sale some fifty choice plantations in Middle, Central and Northern Georgia, at prices ranging from $2 to $20 per acre. Persons wishing to purchase houses, lots and farms had better call on SILL & SHUTTERLY,
Butler street, Lawrenceville.

The Pittsburgh Gazette

THURSDAY, OCTOBER 17, 1867.

THE Iowa Republican majority will exceed thirty thousand.

THE Republicans of Ohio are in good spirits, and their watchword is "no steps backward!" They learned long ago that the Confederates often win in the first day of a battle, but never fail to get a flogging in the third day's fight.

SOME journals hold that the recent elections kill the threatened impeachment of the President. That is a mistake. The President's official acts were not wiped out of history by the elections. If he merited the disgrace contemplated the causes yet remain, and Congress must discharge its duty towards the people.

THE FOLLOWING PARAGRAPH is going the rounds:

"It may not be generally known that General Sheridan is a member of the Grand Army of the Republic, all of whom are styled "Comrades;" hence it will be seen how appropriately he addressed the torchlight gathering at Boston as "Comrades."

General Sheridan is not a member of that patriotic order, although we heard him say that his sympathies and best wishes were with the organization.

SECOND ASSISTANT ENGINEER GEO. F. SAWYER, is on trial at Portsmouth, Virginia, before a court martial, for saying, in a political discussion, that President Johnson ought to be impeached. It is to be hoped Mr. Johnson kept a copy of the Constitution at the time he swung around the circle and distributed it for preservation, and if so he might be induced to look over it and cite that portion by which a soldier or sailor is deprived of his right to express his opinion on any political issue.

GOV. SWAN'S militia will cost Maryland three quarters of a million this year. The State is small and burdened with debt. There is no war or fear of insurrection, and the *Press* asks:

"Why should armed men be drilling from morning till night within her borders, and disquieting the land with their heavy tramp?"

Perhaps it is that there was no demand for Confederate gray, and that Gov. Swan, or some of his friends, had a stock on hand and wished to dispose of it.

SIDE ISSUES.

No one cause contributed so much to the losses sustained by the Republicans at the recent election held in this State as side issues. These were uncommonly numerous, and were pressed with a zeal amounting to unflinching tenacity. Far be it from us to depreciate the absolute importance of the matters on which these diversions occurred, or to impugn the motives of the men who made them. They gave unmistakable evidence of earnestness. No doubt their sincerity was equal to their enthusiasm.

The Workingmen's movement resulted in serious damage to the Republican interest, as it was designed to do by the men who were most influential in imparting direction to it. We are not of the number of those who believe that the iterdependencies of Capital and Labor have been adjusted as impartially as they ought to be. At present, and in important particulars, Labor has decidedly the worst of it. If we were to enter upon specifications upon this point we should differ widely from the self-constituted champions of the Workingmen; possibly from most of the Workingmen likewise. But it is not our immediate purpose to enter upon this discussion, whatever may be our inclination and opportunity hereafter. Be it sufficient to say that we heartily endorse the late address of the Executive Committee of this county, that "all class legislation shall be abolished." Concurring in this, we dissent from the numerous items of class legislation which the Workingmen urge in their own behalf. What can be done by just and general legislation bearing alike on all classes, to ennoble and dignify Labor, to secure proper rank and remuneration for it, and to make it obligatory on all to the easement of those who carry excessive burdens, we shall always, and under all conceivable circumstances, be ready to help do. But, we have a deep and abiding faith that the Republican party, whatever may have been its short-comings in any respects, has done more for the promotion of the rights and interests of Labor than all the other parties that now exist or ever have existed in this country.

Then the License question was made to inflict great injury on the Republican party. The Temperance men pitched into that party or its candidates either because it had enacted some laws which they regarded as too latitudinarian, or had enforced certain laws according to a liberal interpretation of their letter and spirit. The Liquor men pitched into the Republican party under the accusation of puritanism, austerity and bigotry. Each of these factions pointed to the same things to justify their respective impeachments. Of course, these conflicting deductions were not both legitimate and well founded. Either one or the other was totally mistaken, or else both were, to certain degrees, unjust and unsustainable.

In Philadelphia the Sunday-car question operated powerfully against the Republicans. For several years many of the inhabitants of that city have urged the passage of a law authorizing the horse-road companies to run cars on Sunday; or, at least, the submission of the matter to the decision of the people of that municipality on a direct vote. Republican leaders, from time to time, have given assurances that the law demanded should be enacted; but these promises have not been fulfilled. From the Sabbatarians so powerful an opposition has been maintained that the representatives of Philadelphia in the Legislature have been overawed, insomuch that they have not dared to authorize what is done in Pittsburgh and every other large town in the Union except Philadelphia, regularly every Sunday. It is probable, moreover, that the result produced by this question at the late election is but the prelude of more to follow, unless the demand for the running of cars on all the days of the week shall be acceded to. The Sabbatarians have rights of conscience in this matter; but so have the Liberals. The obligations of the Sabbatarians to respect the convictions of the Liberals, measured from the political stand-point, are just as weighty as the obligations of the Liberals to respect the convictions of the Sabbatarians. Before the laws, all men are equals, no matter what may be the differences among them of race, color, condition or religion.

In addition to these side issues many of the Republicans of Philadelphia evinced a pride of locality most prejudicial to Republican ascendency. With three Judges of the Supreme Court already numbered among their immediate fellow-citizens, they were resolved to obtain a fourth by a flagrant breach of party fealty. They deluged the Commonwealth with circulars in favor of Mr. SHARSWOOD, and doubtless voted for him as they urged others to do. Now, we are far enough from holding that Republicans are bound to vote for bad men whenever such happen to get on their tickets. We have steadily inculcated a contrary practice. If any Republican, in this county or elsewhere, at the late election, or any other occasion, voted for a bad man, he did not do so at our instance or request. We have avowed that it was always the duty of each Republican to scratch candidates he believed not to be fair men for the places they were running for. This is the best check the masses of the party have upon nominating conventions. This we invariably do, judging for ourselves in each case, and leaving all others to judge for themselves. On this point we do not try to impose our judgment on our friends, nor do we allow them to impose their conclusions on us. But, these Philadelphia bolters had no plea of incapacity or unworthiness to urge honestly against Mr. WILLIAMS. In all personal and professional qualifications he is the full peer of Mr. SHARSWOOD. In allowing the prejudices of locality to warp their judgments, they have sowed a crop of revenges which will spring up in due time and produce fruit they will have occasion to deplore.

No large number of men can work together harmoniously when cordial agreement is demanded from them on many questions. Great national parties, from the very necessity of the case, are restricted in the ends they will pursue. The Republican party was called into existence to resist the encroachments of slavery. By the progress of events it had forced on it the high duty of maintaining the integrity of the Union and imparting stability to personal liberty. This latter duty remains unaccomplished. It is the most pressing and fundamental duty that devolves on any political organization at this hour. The present opportunity lost, it may not be found again. The issue is, in itself, the most momentous that can claim the attention of a city. Whatever importance may attach in the minds of men to other issues, they can wait; while this must be determined now, one way or the other.

Before the election we pointed to the perils invoked upon the Republican cause by side issues. This we did not do in an unkindly spirit or for sinister ends. What we urged has, we submit, been justified by the result. Except the Philadelphians, who allowed their personal preferences or local prejudices to capture their judgments, none of the bolters from the Republican ranks have accomplished what they desired; but have encountered irrevocable loss. Shall not a larger measure of wisdom prevail in time to come?

THE RECENT ELECTIONS—SPIRIT OF THE PRESS.

THE Parkersburg (W. Va.) *Times* referring to the vote on negro suffrage, says:

"The great measure will be triumphantly carried at no distant day, and the fair name of this country redeemed."

THE Richmond *Dispatch* is jubilant over the waning power of Republicanism and regrets that the "Democratic party had a load of prejudice to fight against." It encourages its readers in the hope that the reconstruction laws can now be defeated, and proposes to nominate General Sherman for President "upon his terms of reconstruction set forth in the paper signed by himself and General Johnston."

THE reverse has taken place in good season for the Presidential election of 1868. Let us strive and hope, and continue to make the good fight on the high and impregnable position of the Equal Rights of Man.—*Nashville (Tennessee) Times.*

BUT the result has little political significance.—*Warren (Ohio) Mail.*

SIX MILLIONS of people have spoken. It is high time for a voice so potent to make itself heard. Our sons were led by thousands to fruitless slaughter,—yet it was dumb. Heaping up, to mortgage the industry and abridge the joys of ourselves and our children and our children's children, rose a mountain of debt—yet it was dumb.—*N. Y. World.*

THE war for the restoration of the Union has proved a failure.—*Chicago Convention.*

OUR OPPONENTS, as is well known, have in the past usually carried the State elections just previous to a Presidential election; and we are therefore safe in arguing and predicting the triumph of the party of freedom and progress next year. Then will come our turn for rejoicing.—*Springfield (Ill.) Journal.*

THE Abolitionists have been whipped, said the Democracy after Bull Run. The Abolitionists can never conquer the South, said Democracy when Lee knocked at the gates of the capitol. The Abolitionists have been defeated, said Democracy when Pope was worsted. The Abolitionists will never triumph over our Southern brethren, said Democracy after every reverse. The Abolitionists have been repudiated, said Democracy in 1862. The Abolitionists are overcome, says Democracy now. But there were two Vicksburgs, two Atlantas and two Richmonds. Rebels and Copperheads had theirs when Grant stumbled over Vicksburg, Sherman was blockaded at Atlanta, and various other Generals were turned back from Richmond. The Unionists had theirs when all three in succession fell. History repeats itself.—*Albany Journal.*

PRESIDENT JOHNSON remains entirely calm under the popular endorsement of his policy, and received the congratulations of General Sherman and his other friends with the simple remark that the elections prove his confidence in the people not misplaced.—*Boston Post.*

DEFEAT does not disarm. The most important victories have always followed the greatest defeats. It is only necessary to a powerful party that the causes of failure should be clearly seen and promptly recognized. We see nothing to change in our principles. They are founded upon the unchanging and ever-enduring basis of truth. They will stand as long as the reasons on which they rest. In 1862 the country was swept by Democratic gains far greater than those recently obtained, and then, as now, some of the faint-hearted wavered and were dismayed; but the great truths of freedom, written deep in the popular heart, were mighty in the face of defeat, and they prevailed. Once again we have met with disaster, but we shall come forth from it purer, stronger, and more victorious than ever.—*North American and Gazette.*

THE emancipation proclamation of 1862 was an ultra-Radical measure. It was followed by anti-Radical victories. The reconstruction measures of Congress are Radical measures; they have been followed by Democratic gains in the political field; but it does not follow that the Republican party, having hold of the plow, should look back as some timid folk may advise. On the other hand it should furnish incentive for renewed and united effort. The columns should be closed up. The stragglers should be forced to fight or be treated as deserters.—*Chicago Republican.*

THE little gale of wind that blew on Tuesday last has had the effect of dispersing the mists and clearing the atmosphere. Wise men of all political parties, whatever their disappointments or whatever their rejoicings, are beginning to see more distinctly than they did the precise condition of things. * * In the first place the President, whose conduct has frequently been such as to excite the fears of the public rather than its trust, has exercised a rare discretion in not making a speech, which was expected of him last evening.—*Evening Post.*

THE result of the recent elections is said to have prompted him to this course; (change his Cabinet,) and, under the same instigation, if he changes it at all, he is expected to make it up wholly from the Democratic party.—*N. Y. Times.*

NO POLITICAL EVENT in the whole history of the Republic stands more eminent and significant than this triumphant popular endorsement of Andrew Johnson.—*St. Louis Dispatch.*

MORE than the lesson of these resources to the Republican party, is the invitation to King Andrew to go in and show his hand. We have heard mutterings and threatenings enough. If Andrew has any purpose to try a lance with Congress, now is his time to try it. And we believe the besotted man will "embrace the opportunity." He will take indorsement of this "reaction" all to himself, and in his drunken fury we may expect almost anything from the White House.—*Chicago Tribune.*

WHEN Johnson deliberately nullifies, as he has formerly threatened, these acts of Congress, and hails the late democratic majorities as so many endorsements of these threats, woe betide the poor men, women and children whose Moses he ostentatiously proffered to become. If, as in the montrous case exposed and so promptly punished by Gen. Sickles, young and helpless females are scourged by strong men, or if, as in the deliberate murder, by a rebel policeman last week, in the city of Baltimore, of a colored man, and the offence set down as an accident, let us not be astonished if rapine and massacre become common and even popular all over the South, now that the rebels are permitted to claim that treason has been made honorable in the Northern elections, and that Andrew Johnson's revolutionary policy has been endorsed.—*Philadelphia Press.*

NEXT year we shall have a square issue made up. Then the apathy and indifference which too much prevails in the Republican party will be removed, and its lines will go forward solid to complete victory again.—*Utica Herald.*

IN 1862, by some strange miracle, that State, Ohio, glided out of the tempest, and drifted into the Democratic harbor, but the next swell took her back again amidst the breakers. In 1860 Lincoln had a clear majority of nearly 21,000 over the combined vote of Douglas, Bell and Breckinridge. In 1861, Tod, for Governor, had a majority of 55,203. In 1862 came the grand reaction, and the Democrats carried the State by a majority of 5,577. In 1863 came the contest between Vallandigham and Brough, the latter being elected by a majority, on the home vote, of 61,920, and on the total vote, of upwards of 100,000. In 1864 Lincoln's majority was 59,586. The next year, in a greatly reduced vote, Cox's majority, for Governor, was nearly 30,000. Again, last year the Radical majority was 42,696.—*St. Louis Republican.*

According to precedent, the State must be carried into "the breakers" again in 1868.

WE trust the result of Tuesday's elections will startle and alarm the friends of freedom and justice, and arouse them to suitable exertions; we trust it will lead them to reflect upon the disasters that must fall upon the country if they sit down in idleness or fall asleep while the Vallandighams and Seymours, the Hills and Jeff. Davises quietly seize upon the reins of government and enter upon the work of restoring a pro-slavery constitution and repudiating the national debt. It behooves us at the November elections to show these men that the friends of the Union will not desert their colors and join the ranks of the enemy.—*Milwaukee Sentinel.*

THROUGHOUT the North and South it will be trumpeted that Pennsylvania has repudiated the policy of Congress, and announced her conversion to the theories of Mr. Johnson, and the great work of reconstruction will be delayed by our act of yesterday. Yet we desire New York and Georgia equally to remember that Pennsylvania has uttered a lie. This State is now as thoroughly Republican as it was last year, and defeat will but teach the people whom they are henceforth to trust. It will inspire us with new earnestness and resolution to recover by hard work the ground we have miserably lost. A greater campaign than that just ended is before us. At the worst this is but a moral defeat, and leaves the State government in Republican control. But we are even now entering upon the Presidential canvass, and this will turn out to be a Cedar Creek victory for the Democracy. It needs but one strong man to rally our broken ranks and hurl them against our foes, as Sheridan dashed his army against Early.—*Philadelphia Post.*

LIKE the overthrow of the Union army at Bull Run in 1861, will only better discipline and prepare the champions of human freedom for a braver and a luckier conflict with the sympathizers with the rebellion. There is a supreme compensation in the fact that this untoward result, disheartening at first, has only served to inspire the Union Republican party with new determination. When the men who have contributed to this triumph of the desperate politicians who encouraged, organized, and aided the rebellion, come to reflect that they have also done more to stimulate the infamous apostate in the Presidential chair in his efforts to restore the armed traitors to the possession of the government, than if these armed traitors had achieved a bloody victory over the Union army, they will, perhaps, revise their hasty judgment, and turn to the great party which, in war, as in peace, has been one of the main bulwarks of our imperilled Republic. Certain it is, the events of yesterday will compel us to take no single step backward.—*Press.*

WE now speak of the necessity of comprehending once for all the overshadowing importance of the great national issues, and of learning that it is our duty to keep them alone in view, and to turn neither to the right hand nor to the left until they are settled.—*Boston Advertiser.*

CHOLERA! CHOLERA!

With the almost certain advent of Cholera, no thoughtful person will be unprepared for it. Secure what experience has demonstrated to be the most certain antidote—that which has cured once will cure again, and never purchase a new and untried article, when an OLD AND RELIABLE ARTICLE can be had. When the cholera visited us on two former occasions, it was found by experience that

FLEMING'S CHOLERA MIXTURE

Was the best, and superseded all others, therefore it stands to reason that, if you would have an article that you can depend on, you should purchase it to the exclusion of all others.

AN AUTUMN SUGGESTION.

Now, as heavy fogs arise and searching winds commence to blow; now, as the human body, exhausted like inanimate nature by the heats of summer, begins to wilt and droop; now, ere the inclement winter makes its trying onset; NOW is the time for a preparatory course of the best acclimating medicine in existence,

HOSTETTER'S STOMACH BITTERS.

Fever and Ague is rampant in all parts of the country. Quinine, the physicians admit, will not [illegible] the place of the disease which at present pervades the entire West. It is well that it is so, for the remedy (so-called) is dreaded far more than the malady. But if quinine is inefficient in intermittent fevers HOSTETTER'S BITTERS is irresistible. It would be safe to make a contract, under heavy penalties, that any given "Fever and Ague District" should be exempted from the [illegible] for any particular time, provided every inhabitant would take the BITTERS according to directions, during the term of the contract. There has never been an instance in which that [illegible] invigorant and anti-febrile medicine has failed to ward off the complaint, when taken duly as a protection against malaria. Hundreds of physicians have abandoned all the officinal specifics and now prescribe this harmless vegetable tonic, and nothing else, as a preventive and cure for all the forms of chills and fever. Vigor is the thing most needful in these cases, as well as in dyspepsia and nervous affections, and HOSTETTER'S BITTERS are the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

BLIND EYES RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on Dr. KEYSER in person, to thank him for his genius and skill in restoring her TO ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like hers are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DOCTOR KEYSER'S treatment for two months, and before she applied to him through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the facts above stated.

JOSEPH LOUGHREY,

CO-PARTNERSHIP.—The undersigned have this day, (Oct 1st,) entered into partnership for the purpose of carrying on the manufacture and sale of Harness, Saddlery, Trunks, Horse Equipage, and Horse Furniture, and can be found at the new wareroom erected on the site of the one formerly occupied by Loughrey & Frew their predecessors, at No. 102 Wood street, and where they would be happy to see the patrons and customers of the old firm, and their own numerous friends and acquaintances. Jackson, having been for many years in the livery business, and a man of taste in all matters appertaining to the furniture and equipment of the horse, they may depend on a full and fine assortment of all goods in their line. I will, as heretofore, carry on the branch of HOSE and BELTING, and also introduce to my brother craftsmen a novelty in the form of a NEW PATENT BUCKLE, of which I am the patentee.

OFFICE OF THE AKRON IRON CO.,
Akron, July 12th, 1867.

Mr. Robt. C. Totten, Pittsburgh, Pa.—Dear Sir: We have had a pair of your patent grooved chill rolls in our use for the last six months, and find them of a superior quality. The iron finished on them is of a smooth, even surface, and free from scales, and I consider them in all respects of great advantage, making better iron and of less expense, in consequence of requiring less dressing. Yours truly,

Mr. Robt. C. Totten—Dear Sir—The grooved chilled rolls which we procured from you about a year since have proved to be a perfect success. There is a great saving in dressing over soft Rolls, and give a much better finish to the Steel. We consider them indispensable.

Yours truly,

ANDERSON, COOK & CO.

BLACK DIAMOND STEEL WORKS,
PARK BROTHER & CO.,
PITTSBURGH, Sept. 18, 1867.

Mr. Robt. C. Totten, Pittsburgh—Dear Sir:—In reply to your inquiry in relation to your new patent grooved Chill Rolls, we have to say that having used a number of them, we find they answer our purpose admirably. We are now using a pair of 16-inch grooved Chill Rolls, the last pair you made for us. These Rolls are used for finishing large rounds, and enable us to obtain such a finish upon our Steel as could not be had with the use of the ordinary grooved Rolls. The saving in turning your Rolls ready for use, is fully one-fourth less than is necessary when plain Chill Rolls have to be grooved in the turning lathe, whilst the advantage gained with your grooved Chill Rolls is, that the whole surface of the groove is uniformly hard, requiring not over one-half the work that is usually needed in dressing the ordinary grooved Rolls. We believe you have gained a great point in producing a grooved Chill Roll, an article that has long been needed by the manufacturers of Steel and Iron, to enable them to produce an article with a good finished surface.

We take pleasure in recommending manufacturers of Steel and Iron to give your grooved Chill Rolls a trial. Respectfully yours,

PARK BROTHER & CO.

We think we are warranted in believing that they will eventually take the place of Soft Rolls, especially for Rounds and Squares.

All orders promptly attended to.

The Pittsburgh Gazette

THE COURTS.

Quarter Sessions—Judge Stowe.

This Court met at ten o'clock Wednesday. The following business was transacted:

VERDICT OF GUILTY.

The case of the Commonwealth vs. Charles Douglass, indicted for highway robbery, on oath of Patrick Bannon, was concluded, the jury, after about ten minutes' deliberation, finding a verdict of guilty. Sentence deferred till Saturday.

FALSE PRETENSE CASE.

Isaac Wolff, a stranger in the city, and hailing from Wheeling, was called to answer an indictment for obtaining money under false representations, on oath of W. W. Ward. It was testified that the defendant obtained from the firm of McClintock & Cochran and the Atlas Works, in the Ninth ward, the sums of two and five dollars, by representing that he was the authorized agent of the Columbia Hose and Hook and Ladder Company, of Allegheny, and that the money was to be applied to the purchase of a hose carriage. The President of the Columbia Company, John Stikes, testified that the defendant was not a member of the organization and not authorized to collect money.

No testimony for the defense was offered, but it was contended there was no fraudulent intention on the part of the defendant. He had collected the money as stated, and designed handing it over to the proper parties, but was arrested before he had opportunity to do so.

The jury convicted. Remanded for sentence.

STEALING SHOES.

Levi Upton was jointly indicted with James Brown and C. H. Simmons, for the larceny of shoes, &c., the property of Palmer, Anschutz & Co., of Market street, in July last. Brown and Simmons, who were on bail, were called, but did not answer, and therefore Upton was alone on trial. The defendant was foreman of the establishment, and slept in it. Goods had been missed for some time, and it was suspected that the thief was one of the employees. A watch was kept, and on a Sunday, in July, Upton, Brown and Simmons were discovered in the store handling boots and shoes, and acting in a suspicious manner. They were accordingly arrested.

The jury convicted Upton, recommending him (by reason of his old age) to the mercy of the Court. Sentence deferred.

PLEAD GUILTY.

George Graham, a soldier, plead guilty to collecting money under false representations from George Carver, and was sentenced to twenty days' imprisonment in the county jail.

John Haney was brought from prison to answer a charge of larceny, having been indicted for robbing the money drawers of butcher stands in the market. He plead "guilty, but drunk." Judge Stowe said the Court would receive the plea of guilty, but drunkenness might be suggested. Prisoner said he was employed in steel works. He was sentenced to twenty days in jail.

INDICTMENT FOR ESCAPE.

John James Kerry Rinthia Draden, colored, was placed on trial on an indictment for aiding the escape of a prisoner from the county jail. The defendant is alleged to be the individual who secured the escape of a negro, a horse thief, some time since, by exchanging clothing with him. Draden was in prison for vagrancy, or disorderly conduct, and his term of imprisonment having expired, he permitted the thief to personate him in being discharged from the jail. The case was on trial at adjournment.

Common Pleas—Judge Sterrett.

A MINISTER ON TRIAL FOR SLANDER.

A rather interesting case was on trial yesterday. It was an action for slander, George Burns suing Rev. William Hunter for damages for alleged slanderous words. The defendant was minister of the Hopewell Presbyterian Congregation, in Finley township. Plaintiff was a church member, and was, in 1865, arraigned before the sessions for slandering the defendant. The alleged slanderous language (the subject of the present trial) was used during the church trial of Mr. Burns for slander, at Hopewell, and repeated before the Presbytery, Burns having appealed from the sentence of suspension pronounced upon him. It was alleged that Rev. Hunter, in his address before the sessions, as prosecutor, spoke of Mr. Burns as a "very bad man," "the biggest liar in Finley township," "a thief and assassin, worse than Booth," and as "living in incest every day of his life." The witnesses examined testified to a very bad state of feeling between the plaintiff and defendant, and to their having indulged in recrimination to such an extent before the Presbytery that the Moderator called them to order. The explanation given for the use of the extraordinary language, or expressions, by Rev. Hunter, or at least sought to be given in the cross-examination of the witnesses for the plaintiff, was that Burns had slandered the defendant, in accusing him of abusing an orphan child, and hence the assertion that he was a liar, and a thief, and an assassin, in having stolen or stabbed Rev. H's. character. The remark "living in incest every day of his life," was made with reference to the fact that Burns had married and was living with his deceased wife's sister, thus violating a law of the church. It was stated by one witness that Rev. Hunter called Burns a "black God," (having reference to his anti-slavery opinions,) to which Burns replied that Rev. Hunter was an "Irish hound." The same witness stated that on one occasion he suggested to Rev. H. that he and Burns should "fight it out," to which Rev. Hunter replied that he would, but for the fact that he was a preacher. It further appeared that Burns had on several occasions very strongly intimated that Rev. H. was a traitor and a copperhead, and that Rev. H. in turn spoke of Burns as a "negro worshipper" and as retaining the "stench" to such an extent that he (Rev. H.) could not bear to be near him. Members of the Hopewell congregation have become involved in this imbroglio, causing considerable feeling amongst them.

The case was not concluded at adjournment. Thomas M. Marshall and Kirkpatrick & Mellon appear for the plaintiff, and F. H. Collier and J. H. Miller, Esqs., for the defendant.

Henry M. Morris vs. McGinnis & Mountjoy. Action to recover bill of goods amounting to $685.80. Verdict for plaintiff for the full amount of claim with interest.

Seibert & Mitchell vs. Dr. James A. Herron. Action to recover damages sustained by the breaking of a barouche, hired by defendant from plaintiffs. Verdict in favor of plaintiffs for $120.30.

General Conference of the Evangelical Association.

General prayer meeting met at the usual time. The exercises were pleasant and interesting. Many fervent prayers ascended to the Throne of Grace in behalf of Zion and her interests. Bishop Esher in the chair. The Committee on Statistics reported, from which we learn that this branch of Christ's Church is in a flourishing condition, and that during the last quadrennial, in the midst of the cruel civil war, which passed over us in its fury, she largely extended her borders. The statistics of the church are as follows: Itinerant Preachers, 486; Local Preachers, 379; Members, 60,401; Churches, 735; probable value, $1,189,251; Parsonages, 186; probable value, $142,480; Sabbath Schools, 808; (Many of the Sunday Schools of the church are connected with the A. S. Union.) Scholars, 41,395; Teachers and Officers, 8,304; Volumes in Libraries, 97,550; Catechetical classes, 2,831; Catechumens, 2,772.

Morning exercises closed by S. G. Rhoads, of the East Pennsylvania Conference delegation.

Afternoon session opened by H. J. Bowman, of the Iowa Conference delegation.

The Committee on Annual Conference Recommendations reported.

The Annual Conferences recommend improvements in the discipline to the General Conference.

The Annual Conferences recommended General Conference so to change the organic law of the Church, so as to allow General Conference to make recommendations to the Annual Conferences and give them the power to ratify them, and when ratified by the Annual Conferences the Bishops shall announce it, and shall then be incorporated into the book of discipline.

Quite a number of changes were made, calculated to advance the interest of the work. Afternoon session closed by S. Weaver, of the Canada delegation.

FIFTH DAY.

General prayer meeting met at the usual time. General attendance of delegates, and the exercises interesting, Bishop Esher in the chair. Dr. Nesbitt, of the Pittsburgh *Christian Advocate*, was introduced to the Conference. The Evangelical Association, like the Great Head of the Church, who said "*the poor have the Gospel preached unto them*," has always been favorable to free church sittings, and, upon recommendations of the Annual Conferences, has resolved that our church sittings shall always be free. The Bishops of the churches have hitherto been but Superintendents of the work, but upon recommendation it was resolved that they in the future shall have a constitutional transferring power.

Morning session was closed with the usual devotional exercises by H. Renrick, of the Central Pa. Conference delegation.

The afternoon session was opened with the usual exercise by A. B. Shaffer, of the Indiana Conference delegation. Annual Conference recommendations still before Conference. Dr. Nash, of the "Christ Apologete," was introduced to Conference.

The ritual of the Church was revised. Forms for the laying of corner stones of churches and their consecration to the service of God were adopted. Several Committees were appointed. Afternoon services closed by L. Scheurman, of the Ohio delegation.

The Legislature last year repealed the law granting a pension of forty dollars per annum to the survivors of the war of 1812. The sum was miserably insufficient, but still it was a sort of acknowledgment of the appreciation of the services of those veterans. Yesterday we met an old gentleman, 81 years of age, bent and crippled under the weight of the few white hairs on his brow. His father was killed in the Indian troubles in 1791. He himself fought in 1812, and his eldest son fought and died in Mexico. His only surviving son was a soldier in our army in the great rebellion, and came home crippled. Two years ago the old man was thrown from a wagon and disabled, one side being paralyzed, so that he can do no work, and we think, as he says he thinks, that they ought to give him enough to keep him and the old woman, for they can't live much longer. The old gentleman is from Versailles township; he is weak, and his voice trembles, but his story is powerful with the eloquence of age and truth.

CITY AND SUBURBAN.

Railroad Discrimination—Meeting of the Senate Judiciary Committee.

The Senate Judiciary Committee, which convened here on Tuesday for the purpose of investigating the workings of the different railroad lines of the State, reassembled yesterday, at ten o'clock. Members present: Messrs. T. J. Bigham, D. McConaughy, George B. Schall, and L. D. Shumaker, Chairman. Absent: William A. Wallace.

The hearing of testimony touching the alleged discrimination on the part of the Pennsylvania Railroad, was resumed.

Isaiah Dickey was the first witness called in the forenoon. He stated he had been engaged in the mercantile business for twenty-five years. He had formed a business connection in Nashville about twenty-two years ago. He had purchased a flour mill there, and shipped flour from Cincinnati to New York at 93 cents per barrel. The Pennsylvania Railroad Company then charged 93 cents per barrel from Pittsburgh to New York. This was in 1859. Such discrimination, witness thought, had a tendency to decrease the value of real estate in Pittsburgh, and also to drive trade from the city. Mr. Dickey also testified that when freight was abundant in the West, the Pennsylvania Railroad Company refused to take freight from Pittsburgh, and that the employees of the company would interrogate draymen as to where the freight came from, or whether it was Western or Pittsburgh freight. He had himself tried to ship a lot of flour, which was refused and sent back to him several times. The Pennsylvania Railroad company, fifteen months ago, transported freights from Philadelphia to Alliance, Ohio, a considerable distance west of the city, cheaper than they would to Pittsburgh. Mr. D. stated that he had shipped from Philadelphia to that point, and then shipped it back to this city, at less rates than he could have it shipped direct.

James Mawhinney was next called. He was engaged in the oil business. He stated that the Pennsylvania Railroad Company discriminated between the citizens of Pittsburgh and other points. He had purchased a ticket from Oil City to Philadelphia, for twelve dollars and seventy cents, while the fare from Pittsburgh to Philadelphia was eleven dollars, and from Oil City to Pittsburgh five dollars and forty cents. The distance from Pittsburgh to Oil City is one hundred and fifty miles, making a discrimination in favor of either place of three dollars and seventy cents.

B. Morgan, Esq., was next examined. He represented the oil trade. His statement was chiefly corroborative of what had been previously stated on the question. He said that the discrimination against the Pittsburgh oil men by the Pennsylvania Railroad, or rather the exorbitant rates charged them for transporting oil, was ruinous to the interests of Pittsburgh. He stated the extent of the oil trade at this point, and said he thought that, in addition to the other freights, it would afford ample business for another road.

Mr. Kirk, who was examined on Tuesday, was re-called, and stated that at that time he had overlooked several points which he wished to submit to the committee. During May and June the Pennsylvania Railroad charged for oil $1,70 per barrel to Philadelphia, which is equal to forty-eight cents per barrel for each one hundred miles. The Atlantic and Great Western Road at that time were carrying the same class of freight from Cleveland to New York for $1,53, a distance of 629 miles, or twenty-six cents per barrel for each 100 miles. At that time the same company also carried oil from Oil City to Cleveland for forty-five cents per barrel, making the total charge for 777 miles $2,08, which by the Pennsylvania Road via Pittsburgh, a distance of 488 miles, the cost was not less than $2,30, making a difference against the Pittsburgh refiner of twenty-two cents, while the latter road was 278 miles shorter than the other.

Mr. Robert Hutchison was next examined. He had been in the Commission business in this city for a number of years. The Pennsylvania Railroad Company had always worked against the interest of Pittsburgh merchants, and he considered it a "fraud" on Pittsburgh. He spoke of the Pennsylvania Railroad Company in plain terms, and said there were a number of merchants who would appear and state the same that he did, but for the fear they entertained of "the powers that be."

Adjourned until half past two o'clock.

AFTERNOON SESSION.

The Committee assembled at half past two o'clock and proceeded with the examination.

Mr. C. H. Armstrong was called and testified as follows: He is engaged in the coal business. Has one mine sixteen miles west of the city, on the line of the Panhandle road, one on the Connellsville road, twenty eight miles east of the city, and one on the Allegheny Valley road, twenty nine miles north of the city. He paid forty five cents per ton on the Panhandle road, fifty cents on the Connellsville road, and thirty cents on the Allegheny Valley road. He sometimes shipped on the Pennsylvania road from Brinton's Station, a distance of twelve miles, for which they charged him forty cents per ton, he furnishing the cars in all cases. The distance from his mines on the Connellsville road to Brinton's Station on the Pennsylvania road is sixteen miles, over which his coal was shipped for thirty eight cents per ton. In addition to the above rates charged the Pennsylvania Railroad Company refuses to pay for the cars they break, while the other companies do not. His freight amounted to about four thousand dollars per month over all the roads.

Mr. S. K. Hoxie, from Philadelphia, presented a map on which was indicated the different lines of railroads running east and west, and from which he established the fact that four-fifths of the products of all the western States could be placed on the wharfs at Pittsburgh cheaper than they could be placed on the lake shores, and that if the "bars" at Pittsburgh and Philadelphia were removed, they could be placed in Philadelphia as cheap as they could be placed on the lake shores.

Mr. B. McElroy, sworn—He had been in the dry goods line for twenty years; shipped on the Pennsylvania railroad; had no other way of getting goods. They now pay fifty six cents for bales, and seventy-one cents for boxes. Ship by the Allentown line. We are compelled to ship by this line in order to get our goods through promptly. There is no certainty of getting them through any other way. This line has the exclusive right on the Pennsylvania Railroad. Two years ago goods were shipped from Philadelphia to Cincinnati cheaper than we could get them to Pittsburgh. If we had another line of Railroad through to the east, it would promote the business interest of Pittsburgh. The Allentown line is managed by Clark & Thaw.

Mr. James Park, Jr., was next called and examined as to the effect the discrimination of the Pennsylvania Railroad Company had upon Pittsburgh. He stated that it was a self-evident fact that if there was a discrimination against Pittsburgh the business interests of the city must suffer from it, and he thought that if we had another line of railroad to the East it would be an advantage, as there have been times when the capacity of the Pennsylvania road was not sufficient to carry the freight.

A number of other witnesses were called, whose statements were in substance what had already been advanced, after which the Committee adjourned.

NEIGHBORHOOD NEWS.

PENNSYLVANIA.

—The Wheeling *Intelligencer* says—From gentlemen who came down from Washington, Pa., Saturday, we learn that another robbery took place a short distance from that borough Friday night, the victim in this case being Dr. McDonough, an old citizen of Washington. It appears that the Doctor, who has recently removed to a locality some ten miles from the town, was in town during the day and drew from bank $300, which he had on his person when he started for home. A short distance out of town he was assaulted by two or three ruffians, who dragged him from his horse and rifled his pockets. The horse got away during the scuffle, so that the Doctor had to borrow a horse to ride home. No clue had been obtained to the identity of the robbers.

—A lady named Miss Maggie Young has been appointed Postmistress at Frankstown, Blair county. An exchange remarks; "Who says women wouldn't vote and hold office, if they had a fair chance. And won't the young men circulate around that 'ere postoffice. We think the day is coming when we will have all postmistresses and no masters, and why should it not come?

—George Row, a lad of fifteen years, was severely injured while working with a threshing machine in Conewago; his arm was broken, and one of the bones projected, pulling with it two muscles, nearly five inches out of the wound. His face was also severely bruised.

—George W. Bryant was arrested in York, Pa., last week for forging Col. T. A. Scott's name on some railroad passes. He had also been engaged in paying his debts with checks on banks where he had no money.

—Mr. William Cadwallader, of Washington township, York county, aged 86 years, walked two miles the other day to poll a full Republican ticket.

—Frederick Elflein, a road hand on the Cumberland Valley Railroad, was thrown off of a hand car, run over and badly injured on Saturday a week. His jaw and leg were fractured, a horrible gash cut in his face and his person fearfully bruised and mangled.

—A movement is on foot to secure the the location of the Western Pennsylvania Military Academy in the vicinity of New Castle. To contribute to this object, Mr. J. W. Blanchard proposes to donate ten acres of land on the Zeigler farm, four and a half miles south, with water privilege from the spring, and also $1,000 stock in the building.

—The New York *Evening Post*, of Tuesday, says: The excitement in the seven-thirties, except as used for speculative purposes, is almost exhausted. There appears to no doubt about there being forgeries, and about the amount being much smaller than was at first supposed.

The report has been current that the government has made a formal demand on the persons from whom the counterfeits were received, requiring payment of the money received for them from the Treasury. This rumor is untrue. No such demand has been made as yet.

Several interviews have, however, taken place between the Assistant Treasurer and the firm in interest. There appears to be some doubt at present as to what will be done. The questions involved are so large in their sweep, and connect themselves so closely with public confidence and public credit, that as is natural the various parties are looking up the decisions of the courts of law. And it is claimed in regard to the analogous reported cases in which counterfeit notes on itself have been presented to and paid by a bank, the rulings and decisions such that "the Treasury having received and cancelled the counterfeit notes in dispute, cannot go back upon the innocent holder from whom it got them, but can only have recourse to the counterfeiter. The principle is an important one, and should be settled finally and without delay."

Some stress is laid on the point made in Wheaton, 333, where it is ruled that although "a payment received in forged paper is not good where there has been no negligence in the party receiving it, yet the principle does not apply to a payment made *bona fide* to a bank of its own notes, which are received by it as cash and afterwards discovered to be forged."

—The New York correspondent of the Philadelphia *Ledger* writes as follows, under date of Monday:

No further developments have been made here concerning the counterfeit Government bonds. It comes out, however, that the Assistant Treasurer has received from Washington some $97,000 of the bogus notes, with instructions to demand their redemption from the individuals who sold them to the department. The talk is, that this demand will be refused; in which case the question will probably go before the courts for arbitrament. There are some who think that, after all, this would be the readiest mode of solving the mystery, which continues to involve the circumstances connected with the issue of the trash, and bringing the guilty parties (whoever they are) to justice.

—The Chicago *Tribune*, of Tuesday, says: The demand for money was reported quite strong to-day, though the general business was only moderately active. The government was checking on some of the depository banks, which tended to make the market still closer, and in some quarters it was pronounced quite stringent. The offerings of grain paper are very liberal, but as a general thing, the banks have no disposition to look up, as it will require all their ability to meet the wants of the packers as soon as the hog crop commences to move. The shipments of currency to the interior are only moderate, and from some sections a return flow has commenced. Paper is subjected to increased scrutiny, and none save depositors in the best of standing obtain any recognition. In the open market there is more paper offering, and money readily commands 1½@2½ per cent. per month, according to the standing of maker and endorser.

—Says the Cincinnati *Gazette*, of Tuesday: There was a very heavy demand for money today, and many applicants had to be refused. Checking is heavy and balances are running down. Rates of interest are firm at 8@10 per cent. between bankers and their depositors, the latter rate prevailing. In the open market money is active at 12 per cent. on satisfactory security, and other than first class paper is neglected. The market may be called close as far as the banks are concerned, but there is considerable money in the hands of capitalists, which is obtainable at the current rates on undoubted security.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, October 16, 1867.

CRUDE—The market was again extremely quiet to-day, not a single sale reported, and notwithstanding there is nothing doing, prices remain nominally unchanged. Spot oil, of which there is but a light supply, is held firmly at 14c, with buyers at 13½@13¾c, while for future deliveries, there is nothing doing, and it is impossible to give reliable quotations. Dispatches from the oil regions to-day quote the market very dull at $4 per bbl at Oil City, and $3,70@3,75 at Rouseville and Petroleum Centre. The operations for several days past have been very light, and while the demand seems to be somewhat restricted, there is not much offering, and so far as we can learn, there is no disposition on the part of sellers to make concessions in order to effect sales.

REFINED—The market for bonded oil was remarkably quiet to-day, but a single sale reported, one thousand barrels for all December, buyer's option, at 31c. We continue to quote October and November at 30 to 30½c; December at 31c, and a "line" from December to March, equal, probably be sold at 31½@32c. While the demand seems to be less urgent, there is but little oil offering and but little to offer, as our refiners, with very few exceptions, do not seem disposed to enter into new contracts until they get through with their old contracts. Another important point to be taken into consideration, is the fact that the stock of Crude is being rapidly reduced, and the prospects at present for an early resumption of navigation are by no means encouraging.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, October 16, 1867.

The general markets present but little that is really new. For some articles there is an improved demand, and that, too, at stiffening prices, while others are dull and weak, with a drooping tendency. Upon the whole, however, there is a fair volume of business, in the aggregate, notwithstanding the transactions are mainly of an unimportant character.

GRAIN—Wheat is in active demand and in limited supply, and, as a consequence, prices are tending upward; we quote at $2,60 for Penna and Ohio Red, and $2,60@2,65 for White. Oats scarce and a shade firmer; sales, on track, at 66@67, and in store, at 70c. Sale of 6 cars Corn at $1,27@1,28. RIVER NEWS.

The river at this point appeared to be on a stand last evening, with twenty-one inches in the channel by the metal mark. The weather yesterday was warmer than for several days past, and it is to be hoped that we will soon have more rain and plenty of it. Some river men are predicting that there will not be a coalboat rise until there is a good fall of snow, which is afterwards to be taken off with rain.

The Monongahela packets are arriving and departing regularly on time, and we are glad to record the fact they appear to be doing a pretty good business.

The following comprise the Wheeling delegation to the Cincinnati Convention: Capts. Isaac L. Thompson, J. T. Russell, John Mulrine, Chas. Booth, Wm. List, T. C. Sweeney and Chas. Muhleman.

We clip the following items from the Cincinnati *Gazette*, of Tuesday:

The Florence Traber lay at the wharf all day yesterday, undecided what to do. Several parties were negotiating for her charter, among them the Cincinnati, Big Sandy and Pomeroy Packet Company. She will go into one of these trades to-morrow. The Emma No. 3 goes on the Eureka Docks to-day. The America, having been withdrawn from the Manchester trade, will enter the Portsmouth trade to-day, in place of the Bostona. Captain John L. Rhodes, of Pittsburgh, arrived in the city yesterday. Capt. J. H. Porter, of the Ezra Porter, left for Evansville by rail yesterday morning. We expect to meet a large number of steamboatmen from abroad to-day, who will be in attendance at the Steamboatmen's Convention.

A Louisville telegram to the same paper, under date of Monday, has the following items:

There are two and a feet on Portland bar. Business is dull; mercury, 70. The river has fallen an inch in twenty-four hours. The Lizzie Hopkins and Spray arrived twenty-four hours behind on account of a dense fog. The Cora S. arrived five days from Memphis and returns to-morrow. She passed the Ida Reese at Blue river. The Rose Hite leaves for Henderson to-morrow. Nothing important transpired at the meeting of the Marine Association. The wreck of the Ella Faber sold at auction for $2,100 to Mr. Richardson, of Jeffersonville. A panic prevails in Vicksburg on account of the yellow fever.

CUNARD LINE—The Cunard Royal Mail Line has now been twenty-seven years in existence. The Cunard Company bought four ships to start with, and they are now the owners of twenty-four splendid ocean steamers, built of their large profits, after paying splendid dividends to the stockholders. As an evidence of their prosperity, says a letter writer, take the present cargo. We have on board two hundred and eighteen first-class passengers, who pay one hundred and fifty-five dollars apiece, making a total of $33,790, in gold. The freight is estimated at nearly $16,000. In addition they receive some $9,000 for carrying the mail (which is included in their annual subsidy from the British Government). Their expenses are about $15,000 the single trip—not more. These figures, nearly exact, foot up a large profit for the single trip. It is only necessary to add that two hundred of our two hundred and eighteen passengers are Americans, to show whence these gains are derived.

WHO SAW IT!—An eastern exchange has the following: The route of the yacht which recently reached Cincinnati, hailing from New York, overland route, was as follows: It went up the Hudson to Albany; thence to Buffalo by canal; thence to Erie by lake; thence to Beaver, on the Ohio river, by canal; thence to Cincinnati. It has gone to Louisville, on its way to California and Alaska.

We extract the following items from the Louisville *Courier*, of Monday:

The Ida Reese cleared for White river Saturday night, with rather a light trip, though heavy enough for the stage of water, as she rubbed hard going out over the first bar below Portland. Yesterday morning Capt. Pink Varble succeeded in floating a flatboat over the falls down the big eddy, and was preparing another for the same destination. He is to use them in endeavoring to raise the locomotive that sunk in the big eddy a year or two ago. The Convention that assembles in Cincinnati can do much good for the steamboat and commercial interests of the West. They should frown down all combinations of trade societies, especially for the undue advancement and regulation of wages, but if any combination is formed, the steamboatmen should unite against railroad monopolies, and against the odious barge line managers. Among the contemplated actions of this convention, one, we believe, will be a protest against the bridge over the falls of the Ohio at Louisville. It should either have a draw over the Indian chute, be twenty-five feet high, or the enlargement of the canal promptly completed. The Belle Lee, the famous boat building at the shipyard of Stewart & Barnore, for Capt. A. McGill, is to be launched on Saturday next. The machinery is all ready to go on board, and the joiners have the cabin work all in hand.

A dispatch from St. Joseph, Mo., dated the 12th, says: Late reports indicate that the river between this port and Omaha is in even worse condition than heretofore indicated. The Lacy is reported a total wreck, having broken in the middle. Efforts will be made to remove her machinery, which was in as good condition as possible. The grain on board was consigned B. W. Parey, of Weston, and some few hides were consigned to parties in Saint Louis.

The New Albany *Commercial* has the following in regard to the survey of the Tennessee river: This survey, under the charge of Maj. General Weitzel, United States Engineer, whose headquarters are in this city, is progressing finely. The officers in charge, which we learn ... have gathered a large amount of information ... reached a point ... Chattanooga ... obstructions at ... Skillet, Boiling ... Widow's Bar, ... the country, ... high and low ...

The St. Louis ... We were grieved to learn of the death, in this city, of ... an excellent ... with the house ... received a ... Turner was a ... During a ... died of ...

THE BANKERS' AND MERCHANTS'

GRAND

Presentation Enterprise

HAS PROVEN

A WONDERFUL SUCCESS.

CAPITAL, TICKETS AND PRIZES

INCREASED FROM

$1,287,148 TO $1,500,000,

Making this the most Stupendous and Successful Presentation Scheme ever Inaugurated in the World!

Our Agents have received orders for over One Hundred Thousand Tickets more than the original issue, and the Managers, being desirous of filling the orders and of supplying the demand, have decided to increase the tickets from 1,287,147 to 1,500,000.

The Committee appointed at the first Concert, have decided to distribute the Prizes at the

THIRD AND LAST CONCERT,

WHICH WILL TAKE PLACE AT

IRVING HALL,

NEW YORK CITY.

Thursday, October 24th, 1867.

TICKETS, ONE DOLLAR EACH,

A PRIZE WITH EVERY TICKET.

PROSPECTUS.

A number of the leading Bankers and Merchants of New York, in consideration of the great success which has attended many of the Charitable Presentation Entertainments of the day, have formed themselves into a company, with the view of inaugurating an enterprise which, while it shall return them a fair profit, shall offer greater advantages to ticket purchasers than any yet presented; and which being conducted upon a perfectly legitimate and business basis, shall be free from those objectionable features which have characterized many of these enterprises.

To this end they have consigned the sale of tickets and the registering of the same to Clark, Webster & Co., Bankers and Managers, No. 62 Broadway, New York, who will keep the records in their custody until the day of the Grand Presentation Entertainment, when they will be handed over to a Committee selected by the audience to make an impartial distribution of Presents.

A reference to the number of presents and the general plan of distribution, given below, will convince even the most sceptical of the great advantages which will accrue to all who participate in the enterprise; and the Commercial and Financial standing of the Company, and the Managers and Bankers thereof, will, they hope, prove a sufficient guaranty of the fairness and impartiality with which everything in connection with it will be conducted, and that the interests of ticket holders will be most strictly watched over and guarded. In fact, it is the desire of the Managers to conduct every transaction for the mutual benefit of whoever shall purchase a ticket, and scrupulously to avoid any and everything which could in the slightest degree diminish the profits which are likely to accrue to all who invest.
